

Alcohol and Illegal Substance Use

- We disapprove strongly of the possession, use or supply in any circumstances of illegal substances.
- All incidents involving actual or suspected possession of illegal substances must be reported to the Headmistress immediately who will investigate the situation.
- At the discretion of the Headmistress, any girl found possessing or using illegal substances on school property may be suspended or in extreme cases requested to leave. Any girl supplying illegal substances will usually be requested to leave.
- If information concerning out of school use of illegal substances is received by the Headmistress, then parents may be informed.
- Drugs education is part of the PSHE programme. Outside agencies with experience of working with young people and with professional knowledge will also be used. We also believe in involving parents by including them in drugs education lectures.
